

Outer Box Elements
Drip off printing is used to get a matte/gloss effect or structure in just one single coating. It is also combined with UV printing technique where in the process is reversed and first matte coating is applied

Multi-Vitamin composition which is printed on the outer box to inform about the product contains.

Alu Alu Foil is an excellent multilayered structure Designed for a high sensitive range of Pharmaceutical and generic medicines that are highly hygroscopic or light sensitive and cannot be suitably packed with barrier plastic films.

Multi-Vitamin tablets are sold in Alu Alu Foil of film-coated tablets in 1 Strip 2 Tablets.

Multi-Vitamin composition which is printed on the outer box to inform about the product contains.

Outer Box Elements
Drip off printing is used to get a matte/gloss effect or structure in just one single coating. It is also combined with UV printing technique where in the process is reversed and first matte coating is applied

Amino Acid Tablet

1x10 Tablets

Multi-Vitamin tablets are sold in Alu Alu Foil of film-coated tablets in 1 Strip 10 Tablets.

Alu Alu Foil is an excellent multilayered structure Designed for a high sensitive range of Pharmaceutical and generic medicines that are highly hygroscopic or light sensitive and cannot be suitably packed with barrier plastic films.

Alu Alu Foil is an excellent multilayered structure Designed for a high sensitive range of Pharmaceutical and generic medicines that are highly hygroscopic or light sensitive and cannot be suitably packed with barrier plastic films.

Multi-Vitamin tablets are sold in Alu Alu Foil of film-coated tablets in 1 Strip 15 Tablets.

Multi-Vitamin composition which is printed on the outer box to inform about the product contains.

Outer Box Elements

Drip off printing is used to get a matte/gloss effect or structure in just one single coating. It is also combined with UV printing technique where in the process is reversed and first matte coating is applied
